DFK Mailbag

During the last two months, I received mail from Fiacre Munezero—who gained 13 points.

You can write to me or send things for the Fun Pages at the email address below or to the postal address on the promise form on Page 2.

Answers to puzzles can be found on the website address shown below.

Bubble Code

Life is more than Froth
and Bubble...
Say "No" to Alcohol!
Choose Life—Not Death!

Use the Bubble Code to work out the message in the bubbles in the beer glass.
See if you can learn to say the verse from memory.

Computer Glitch

Find the two letters that have been attacked on each computer screen. Then use the letters to find the hidden advice. You may need to put the letters in the right order. Saying "No" to alcohol is the best!

Did you enow that your brain computkr is still dkvkloping? Thk brain is not fully dkvklopkd until the agk of 21 or oldkr.

Whpn you bpcomp a tppnagpr, thp brain crpates good eathways or connpctions and makps surp thpy work wpll.

Right nyw, oyur brain is grywing in size—making myre brain cells and increasing the cynnectiyns between them.

Alcohol acts like a comrteu viurs carsing seveue changes to the puefuontal and fuontal lobes of the buain and to the hippocamprs.

It causes majob glitches in youb rbain ry:

- Slowing ob shutting down youb rbain's activity

- Deletang or dastortang messiges between the cells
- Dimigang nerve connectaons

- Mennisg up the wirisg is the brais which cas lead to alcohol depesdesce or addictios.

Other bmd effects include:

- ◆ Not being mble to plmn, amke decisions or process whmt needs to be done

- ◆ Having a poot memoty
- ◆ Nor being able ro pay arrenrion— easily distrtaced
- ◆ Poot schoolwotk.

Drinking alcohol knocks out the brain, like a virus knocks out a computer!
